Summary

I would summarize myself as having a very diverse background that will allow me to excel in many areas. I am naturally an analytical thinker. My goal is to use my knowledge in data and databases to constantly learn and grow to become a great data analyst.

I have experience in SQL, MongoDB, Python, R, Java, XML, JSON, Tableau, and various cloud infrastructures from my time pursuing a B.S. in Information Technology and learning on my own after I have obtained my B.S.
